To what extent has the study day met your expectations? (Please circle your answer)

Exceeded 13 Satisfactory 1 Not met 0

How did you rate the administration of the course? (Please circle your answer)

Excellent 11 Good 3 Satisfactory 0 Poor 0 Very Poor 0

What was good about the learning? List the 3 best things about the learning

Very practical. Started with basics. Focus on functional activities.

Resources. Practical. Presentation.

Practical. Relevant. Enjoyable.

Practical. Tailored to variety of patients. Tailored to variety of problems.

Clearly presented. Relevant to workplace. Participation to aid learning.

Practical session. Handbook. Smoothly run.

A good refresher & learnt new techniques for assessing and treating patients i.e. key point facilitation & higher level balance.

Practical. Easy to ask questions. Fun.

Hands on practical workshop. Very informal & relaxed. Relaxed group discussions. Shared experiences.

Facilitation. Group learning.

Very hands on which gives more confidence to do things in practice. Very approachable teacher.

Good ranging subject matter. Very practical, hands on. Very approachable & friendly tutor. Good fun.

Broke down subject to revise. Provided new information to develop skills. Function related.

It was interactive and informative. Pam is very good at delivering the course.

What was not so good about the learning /what could we have done better?

A session of neuro assessment.

Guiding through postural sets more.

Quite a lot to take in over 1½ days. Quite physio orientated, but to be expected.

Do you have any further comments?

Great course, would recommend to colleagues.

Great that it was in my local hospital. Easy access.

Very enjoyable and good to have resources to use afterwards.

Very applicable to all physio & OTs working with patients.

Would be interested in any other courses that follow on from rehab principles i.e. rehab progressions with or without case studies.

Very valuable.

Very good course, would recommend as will improve practice.

Would recommend this course to all my OT & Physio colleagues. Lots of good learning to improve practice.

All OTs & Physios would benefit from this course, especially newly qualified staff on rotation.

I would recommend the course to others.

A number of people commented that the room was too warm.
